HORIZONPSI STATEMENT ON COVID-19

LAWRENCE, Kan. - As the country navigates this uncharted territory, HorizonPSI stands in unison with its community and the world. Our hearts go out to those affected by this new reality. Our current priority is ensuring the safety of our customers and employees.

HorizonPSI is taking the following steps, in accordance with government regulations and CDC guidelines, to help combat the reach of COVID-19:

- Employees capable of working from home will do so. HorizonPSI has the programs in place to allow for this. We do not anticipate any interruption of services with this transition.
- All essential personal and manufacturing teams will report in-person following the CDC regulations for groups.
- All non-essential travel will be postponed.
- We will not allow any non-employees into our facilities with the exception of delivery and pickup drivers in Lawrence and McCune.

We pride ourselves on the timeliness and attention to detail we offer our customers and are committed to delivering the reliability you have come to expect. While we do not anticipate a large disruption, our leadership team is prepared to review the vast number of options available should the need arise.

Our sales teams and project managers are available regarding normal day-to-day inquiries or questions related to COVID-19. We encourage you to reach out per usual.

We continue to closely monitor the Centers For Disease Control and Prevention's (CDC) guidelines and recommendations to reduce the risk of COVID-19. We are prepared to implement further action when/if appropriate. We thank you for working with us to ensure the necessary precautions are taken to help prevent the spread of COVID-19.
